

Philippine Corn and Agriculture

- 18% of Gross Domestic Product is Agriculture.
- Less than 5% is shared for Agriculture Financing.
- Corn Industry contributes 6.16% or Php 76 billion and is number 8 of the 10 Outstanding National Commodity.

Challenges in Corn Farming

- Increasing Demand, Land Use, Low Fertility, Water, Climate change
- Adulteration of Fertilizers, Fertilizer mixed with Salt
- Illegal copying, mislabeling of fertilizer brand
- Smuggling of Low Quality Fertilizer
- Lack of Police Power & Support from DA-FPA

Low Quality Fertilizer

- It will destroy the soil
- It will destroy the crop
- It will unnecessarily make farmer loss money
- It will destroy overall Food Supply

Recommendation

- Creation of Special Task Force
- Life imprisonment for Illegal Fertilizer Dealers
- Direct Compensation to the farmers
- Blacklist & Prohibit from doing same business
